

A career guidance triage tool with tracking

Need help prioritising your Year 11-13 students for personal guidance?

Want to allocate the right level of guidance to meet students' individual needs?

Looking for a tried and tested digital triage tool that supports progression tracking?

R

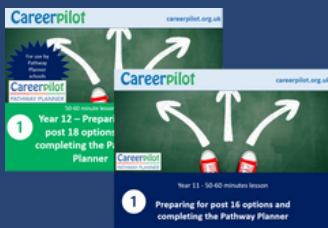

A

G

How does it work?

1

Deliver a lesson to explore options, students complete Pathway Planner and get a RAG readiness score

2

Use Pathway Planner results to allocate and book career guidance at three levels of need

The image shows a screenshot of the Pathway Planner results table. It has columns for 'Student', 'Year 11', 'Year 12', 'Year 13', 'Year 14', 'Year 15', 'Year 16', 'Year 17', 'Year 18', 'Year 19', 'Year 20', 'Year 21', 'Year 22', 'Year 23', 'Year 24', 'Year 25', 'Year 26', 'Year 27', 'Year 28', 'Year 29', 'Year 30'. The rows show individual students with their readiness scores and allocation levels.

3

Deliver guidance and track readiness to progress and destination plans

Assess

Allocate

Track

Get set up with access to Pathway Planner to:

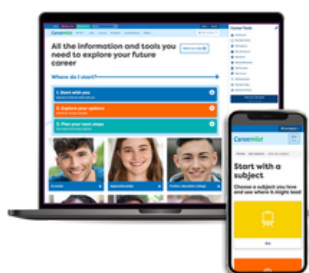

- Assess and triage who needs what level of personal guidance through a RAG assessment
- Allocate and book guidance appointments and track the impact
- Access individual reports as part of pre guidance planning and record adviser comments and action points as a follow up
- Integrate guidance and the role of the adviser across the school
- Track destination plans

"I like the way students can take some ownership and have constant access to their careers details and journey. Also how it can join up the initial student thoughts, careers meeting and tutor support."

"We have just done our Year 11 destination survey and there are only about four or five kids that have not got an idea, which is so different from normal."

Pathway Planner schools can also access the full 11-19 Careerpivot platform:

Careerpilot

Student Zone

Information, advice and tools to empower young people to explore their strengths, understand their options and inspire their future career planning.
